EXPERIENCE

Walmart Neighborhood Market, 4904 Colleyville Blvd, Colleyville, TX 76034

October 2025 - Present

As an Online Shopper/Online Fulfillment Associate at Walmart, I accurately pick and prepare customer online orders while meeting speed, quality, and safety standards. I assist customers in the store by helping them locate items, answering questions, and providing hands-on support, such as loading heavy or oversized products into their vehicles when needed. I ensure all orders are packed securely and staged correctly for pickup, maintain organized work areas, and use Walmart systems and handheld devices to track orders, update inventory, and verify product locations. I work closely with team members to meet daily fulfillment goals and consistently provide a positive and efficient customer experience.

PROJECTS

NotaDestructiveProgram — Computer Science

End of Year Programming Assignment, May 1-10, 2022,

Designed by Isaac Samuel, The Program is designed to allow the user to stress test their computer by opening numerous Chrome tabs until the computer shuts down due to RAM overuse, while being a comedic joke due to the comedic buttons. The Program does not permit damage to the user's device, nor was it created with malicious intent.
